# Ficha Técnica SPRAY REPELENTE AL AGUA EN PLÁSTICO RAIN-X®

## **DESCRIPCIÓN DEL PRODUCTO**

¡El beneficio único de repelencia al agua que se encuentra en Rain-X ® Original Glass Water Repellent ahora está disponible en un producto específicamente formulado para superficies de plástico! Rain-X ® Plastic Water Repellent proporciona una capa superior de perlas de agua en va Plásticos diversos, incluidos Lexan®, Plexiglas®, Perspex®, Lucite®, acrílicos y policarbonato. Observe cómo el agua se acumula y se aleja en los parabrisas de motocicletas, gafas, visores y parabrisas de embarcaciones para mejorar la visibilidad.

## **CARACTERÍSTICAS Y BENEFICIOS**

- Aplica tecnología de gotas de agua para mejorar drásticamente la visibilidad.

- Específicamente formulado para superficies plásticas.

- Se aplica fácilmente para un recubrimiento duradero.

## DIRECCIONES

Agitar bien antes de usar

Limpiar y secar las superficies antes de tratar.

Rocíe directamente sobre superficies de plástico o sobre un paño limpio y seco.

Limpie con un movimiento firme, circular y superpuesto.

Limpiar y pulir con un paño limpio y seco.

Para obtener mejores resultados, utilice un paño de algodón. No utilices una toalla de papel.

## 2. HAZARDS IDENTIFICATION

**Classification** 

OSHA Regulatory Status This chemical is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

## Label elements

**Emergency Overview** 

The product contains no substances which at their given concentration, are considered to be hazardous to health

Appearance White Emulsion

Physical state Liquid

Odor Odorless

## Precautionary Statements - Prevention

Avoid contact with eyes and respiratory system May cause slip hazard if material gets on floor

## **Precautionary Statements - Response**

IF IN EYES: Rinse thoroughly with water for several minutes. If eye irritation persists, get medical attention

#### **Precautionary Statements - Storage**

Store in a well-ventilated place. Keep container tightly closed

## **Precautionary Statements - Disposal**

Dispose of contents/container to an approved waste disposal plant

#### Hazards not otherwise classified (HNOC) Not applicable

## **Other Information**

Not applicable.

## **3. COMPOSITION/INFORMATION ON INGREDIENTS**

| Chemical Name    | CAS No    | Weight-% |
|------------------|-----------|----------|
| WATER            | 7732-18-5 | 60 - 100 |
| PROPYLENE GLYCOL | 57-55-6   | 7 - 13   |

## **4. FIRST AID MEASURES**

## **Description of first aid measures**

| General advice                                                             | Get medical advice/attention if you feel unwell.                                                                                                                                           |  |
|----------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| Eye contact                                                                | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. |  |
| Skin contact                                                               | Wash off immediately with soap and plenty of water.                                                                                                                                        |  |
| Inhalation                                                                 | IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If symptoms persist, call a physician.                                                    |  |
| Ingestion                                                                  | IF SWALLOWED:. Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Call a physician.                                                                            |  |
| Self-protection of the first aider                                         | Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.                                                                            |  |
| Most important symptoms and effects, both acute and delayed                |                                                                                                                                                                                            |  |
| Symptoms                                                                   | See section 2 for more information.                                                                                                                                                        |  |
| Indication of any immediate medical attention and special treatment needed |                                                                                                                                                                                            |  |
| Note to physicians                                                         | Treat symptomatically.                                                                                                                                                                     |  |
| 5. FIRE-FIGHTING MEASURES                                                  |                                                                                                                                                                                            |  |

## Suitable extinguishing media

Carbon dioxide (CO2), Use dry chemical, Foam

# Unsuitable extinguishing media

None

#### **Specific hazards arising from the chemical** None in particular.

#### Explosion data

| Sensitivity to Mechanical Impact | None. |
|----------------------------------|-------|
| Sensitivity to Static Discharge  | None. |

## Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

|                                      | 6. ACCIDENTAL RELEASE MEASURES                                                                                                                                                                            |
|--------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Personal precautions, protective eq  | uipment and emergency procedures                                                                                                                                                                          |
| Personal precautions                 | Slippery, can cause falls if walked on. Ensure adequate ventilation, especially in confined areas. Use personal protective equipment as required. Avoid contact with skin, eyes and inhalation of vapors. |
| Environmental precautions            |                                                                                                                                                                                                           |
| Environmental precautions            | See section 12 for additional ecological information.                                                                                                                                                     |
| Methods and material for containme   | ent and cleaning up                                                                                                                                                                                       |
| Methods for containment              | Prevent further leakage or spillage if safe to do so.                                                                                                                                                     |
| Methods for cleaning up              | Ensure adequate ventilation. Soak up with inert absorbent material. Sweep up and shovel into suitable containers for disposal. Use personal protective equipment as required.                             |
| Prevention of secondary hazards      | Clean contaminated objects and areas thoroughly observing environmental regulations.                                                                                                                      |
|                                      | 7. HANDLING AND STORAGE                                                                                                                                                                                   |
| Precautions for safe handling        |                                                                                                                                                                                                           |
| Advice on safe handling              | Handle in accordance with good industrial hygiene and safety practice. Avoid breathing vapors or mists. Wash thoroughly after handling.                                                                   |
| Conditions for safe storage, includi | ng any incompatibilities                                                                                                                                                                                  |
| Storage Conditions                   | Store at room temperature. Keep out of the reach of children.                                                                                                                                             |

## **10. STABILITY AND REACTIVITY**

## Reactivity

Stable under normal use

#### <u>Chemical stability</u> Stable under normal conditions

Possibility of Hazardous Reactions None under normal processing.

## Conditions to avoid Keep from freezing.

## Incompatible materials

None known

## **Hazardous Decomposition Products**

None under normal use conditions

## **11. TOXICOLOGICAL INFORMATION**

## Information on likely routes of exposure

| Inhalation   | Expected to be low order of toxicity under normal conditions of use.               |
|--------------|------------------------------------------------------------------------------------|
| Eye contact  | Contact with eyes may cause irritation. May cause redness and tearing of the eyes. |
| Skin contact | No known hazard in contact with skin.                                              |
| Ingestion    | Expected to be low order of toxicity.                                              |

| Chemical Name    | Oral LD50        | Dermal LD50            | Inhalation LC50 |
|------------------|------------------|------------------------|-----------------|
| WATER            | > 90 mL/kg (Rat) | -                      | -               |
| 7732-18-5        |                  |                        |                 |
| PROPYLENE GLYCOL | = 20 g/kg (Rat)  | = 20800 mg/kg (Rabbit) | -               |
| 57-55-6          |                  |                        |                 |

## Information on toxicological effects

Symptoms

No information available.

## Delayed and immediate effects as well as chronic effects from short and long-term exposure

| Sensitization          | No information available. |
|------------------------|---------------------------|
| Germ cell mutagenicity | No information available. |
| Carcinogenicity        | No information available. |

## The following values are calculated based on chapter 3.1 of the GHS document ATEmix (oral) ATEmix (dermal) 200000 mg/kg

208000 mg/kg

## **12. ECOLOGICAL INFORMATION**

#### Ecotoxicity

# Persistence and degradability

No information available.

#### **Bioaccumulation** No information available.

Mobility Disperses in water.

## Other adverse effects

No information available

## **13. DISPOSAL CONSIDERATIONS**

| Waste treatment methods |                                                                                                     |
|-------------------------|-----------------------------------------------------------------------------------------------------|
| Disposal of wastes      | Disposal should be in accordance with applicable regional, national and local laws and regulations. |
| Contaminated packaging  | Do not reuse container.                                                                             |
| US EPA Waste Number     | Not applicable                                                                                      |
