

## Product Information

Page 1/1

**Product name**                      **Blue HS 55**

### Description

Delivery form                      Powder  
Colour Index                      Pigment Blue 29 (77007)  
CAS No.                              101357-30-6

### Specified data

dE\* (colour difference) <=              1,5

### Informative technical data (reference values)

Water-soluble content <=	1,0		%
Density ~	2,3		g/cm <sup>3</sup>
Tamped apparent density ~	0,80		g/cm <sup>3</sup>
pH value	7,0	- 9,0	
Particle size (predominant) ~	2,50		µm
Oil absorption ~	45,0		g/100g
Sieve residue 45 µm <=	0,10		%
Heat stability ~	350		°C

### Transport and storage

Long-term durability when stored under the following conditions: Protect against weathering, store in a dry place, avoid extreme fluctuations in temperature. Always close the package tightly after use to prevent the absorption of moisture and contamination. Please always check the condition of the packaging before use. We recommend that this product is used within five years.
